

Onecta app

Now available with voice control

The Onecta app is for people who live their life on the go and want to manage their heating system from their smartphone.

Voice control

To provide users with even more comfort and ease, the Onecta now offers voice control. This hands-free feature cuts down on clicks to manage units faster than ever before.

Cross-functional and multilingual, voice control pairs well with any smart device, including Google Assistant and Amazon Alexa.

Example of using the voice control via Google Assistant

Schedule

Set up a programme outlining when the system should operate, and create up to six actions per day.

- ☒ Schedule room temperature and operation mode
- ☒ Enable holiday mode to save costs

Control

Customise the system to fit your lifestyle and year-round comfort levels.

- ☒ Change room and domestic hot water temperature
- ☒ Turn on powerful mode to boost hot water production

Monitor

Receive a thorough overview of how the system is performing and how much energy it consumes.

- ☒ Check the status of the system
- ☒ Access energy consumption graphs (day, week, month)

Function availability depends on the system type, configuration and operation mode. The app functionality is only available if both the Daikin system and the app have a reliable internet connection.
